I am a full-stack software engineer with a focus on front-end development and creating beautiful and intuitive user experiences. I want to make technology more accessible and straight-forward for the average person. Because of my interest in and understanding of design, I can bridge the gap between developers and UI designers to form a cohesive front-end team.

### SKILLS

- Programming Languages: JavaScript, HTML, CSS, Python
- Frameworks: React, Django, Next.js
- Relational and NoSQL Databases (MongoDB, PostgreSQL)
- Adobe Photoshop, Illustrator, InDesign

### RELEVANT EXPERIENCE

#### **Software Engineering Immersive | General Assembly** | Remote | December 2021 – March 2022

Successfully completed 500+ hours of expert led instruction in JavaScript, HTML, and CSS and hands-on learning of computer programming fundamentals and the industry's most in demand technologies. Developed projects, including:

- divvy): Built with Next.js, Prisma, PSQL, Chakra UI
- Podcast Searcher: Built with MERN stack
- Artem Art Viewer: Built with React, HTML, & CSS
- Mancala Game: Built with JavaScript, HTML, & CSS

#### **Assistant Manager | FedEx Office** | Des Moines, IA | January 2019 - September 2021

- Established and managed a process for customer flow in the store to improve service experience ensuring customers needs were met quickly and quality products were delivered
- Provided training and development of team members on assigned shifts by monitoring goals and providing feedback
- Maintained communication with the Store Lead Consultant and production team to ensure deadlines were met and quality checks were being performed
- Handled customer issues; went above and beyond, worked closely with customer and managers to resolve

#### **Store Lead Consultant | FedEx Office** | September 2017 – January 2019

- Took lead responsibility for digital imaging, scheduling and running black and white or color production on full service orders, including finishing services and large job management
- Demonstrated consultative behaviors to ensure friendly, polite, expert service was delivered to all customers
- Managed the workflow of print production to ensure production orders were completed correctly and on time
- Set up complex orders and performed multiple tasks at the same time

**Artists' Assistant | Gannet, Inc | Des Moines, IA | 2016-2017**

- Prepared ad submissions for creation by typing any handwritten/non-editable text, pulling necessary photos, performing color corrections, image resizing, and file conversions.
- Used Adobe programs such as Photoshop, Illustrator, and InDesign along with the company's proprietary software for ad submission and production workflow.

**EDUCATION**

**General Assembly | Software Engineering Immersive | Remote | 2021-22**
